Steamulation SteamClick 360

The Steamulation Pro X Mini is the perfect entry into the world of Steamulation. Like all other Steamulation models, the Pro X Mini is also equipped with the most advanced, fastest and most comfortable shisha closure system in the world which is very elaborate in production.

Steamulation X-Blow Off Compatibility

The Steamulation Pro X Mini announces the next generation of Steamulation Blow Off systems and is the first Steamulation model to be pre-equipped for this. The Steamulation X-Blow Off technology!
Unique in the world, this system allows you to adjust the blow off while smoking without conversion. Simply fascinating! With this technology, 15 different blow off combinations are possible!

Steamulation Blow Off Compatibility

In addition to the X-Blow Off, the Steamulation Pro X Mini is also compatible with the existing Blow Off adapters, allowing for at least five additional Blow Offs and compatibility with future adapters.

Steamulation Cooling Diffuser Compatibility

The Steamulation Pro X Mini is compatible with the Steamulation Cooling Diffuser. The Steamulation Cooling Diffuser combines numerous functions in its compact design which uniquely enhances and optimises shisha enjoyment. The functions are manifold:

- Cooling of the tobacco head by 4 purge valves, blow-out quantity and response are adjustable.
- 10-fold length-adjustable immersion tube.
- Diffuser with 16 air nozzles and self-cleaning effect.
- Diffuser valve that prevents the water column from rising in the dip tube.
- Integrated molasses trap and body made of real carbon.

Steamulation Perfect Airflow & Advanced Closed Chamber System

The Steamulation Pro X Mini is compact in size, but big on smoking characteristics! When smoking the Steamulation Pro X Mini, you will notice an almost resistance-free smoking behaviour both during the draw and the blow off.

Adjustable diffuser

The diffuser of the Pro X Mini can be adjusted in 3 steps - just the way you like it!
