

Manual

## SteamClick 360

The Original  
EP 3011848

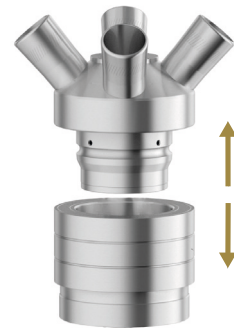

### Opening the SteamClick

- 1) Pull down the ring to unlock the system
- 2) Take out the SteamClick's upper part

### Closing the SteamClick

- 1) Put the SteamClick's upper part on top of the lower part
- 2) Pull down the ring the upper part will automatically fall into the lower part
- 3) Release the ring to the system, so the upper part locks automatically.

### Rotating the SteamClick

The SteamClick features a 360-degree rotation function. The upper part can easily be turned in both directions. Simply move the upper part including the hose connectors manually in the right position to avoid any kinking or twisting of the hoses.

## CLEANING INFO

To safely clean the vase and metal parts, please use only cold or tepid water and carefully towel dry with microfiber cloth.

Using a dishwasher is not recommended as damages may occur.

Please clean your hookah thoroughly before first usage.

Regular cleaning of the hookah recommended in order to ensure optimal flow of the valve and/or pistons.
